Our PLC Trainers are standard educational equipment for manufacturing training and the individual. **We include PLC programming training and examples** so the PLC Trainer can be used for self PLC programming training too. Higher education equals higher pay, so we make these very affordable.

The included series of PLC programming training lessons are for the beginner programmer just learning how to program and the seasoned engineer that is looking to improve their skills. We cover everything from simple pointers to advanced moves and data manipulation. We are trying to teach you something you cannot get in manuals, but we recommend you read them too.

The PLC Trainer will have a CD with 7 PLC programming training lessons, free PLC software download instructions and 4 Allen Bradley PLC programming training examples. Some of the lesson titles that come with this PLC Trainer are ...

Simple Latch Circuit - PLC Scan Cycle - An Event Recorder - Tracking Parts on a Conveyor Line

Grinding Machine - Pump Sequence
